

The 2021 3D Archery league is now complete. There were seven teams and eighteen individuals who submitted a complete set of eighteen round scores. The competition was excellent, and the placements changed from week to week. Thank you to all the participants for their commitment to the sport. First place winners will receive a trophy and return of their entry fees.

Ethical bowhunting requires developing your skills. The course will be available until October 9<sup>th</sup> when I have scheduled work hours for takedown and storage of the targets. Meet at the lower parking lot by 7:45 am.

May the buck or bull of your dreams stand broadside downwind and staring away at 20 yards with no obstructions between you. Good luck!
