2019	40	17	43%	187
2020	40	23	57%	221
2021	40	12	33%	136
Total Eggs Hatched:				2,823

* Total eggs hatched, is an estimate from data taken when the nest boxes are cleaned out. Wood ducks generally lay 12 to 15 eggs in a sitting. The average nest has 12 eggs. The un-hatched eggs found at cleanout are subtracted from this to get the estimated hatch.
